

IPS Secondary Employment Services

The IPS employment service provides one to one support to individuals across the Black Country who wish to gain employment.

Who can access the IPS Service?

We support individuals who are open to secondary care mental health services in the Black Country. This applies to anyone who is under the care of a psychiatrist and may have a care co-ordinator such as a community psychiatric nurse or an occupational therapist.

Employment Retention Service

The employment retention service provides advice and support to people accessing secondary mental health services and currently in employment, to help retain their job. This could be supporting to return from a period of sick leave or needing in work support to sustain their job and considering options available to them.

The Employment Retention Team can support you to:

- Help you understand your rights and employment law
- Open conversations with your employers to discuss your mental health
- Discuss reasonable adjustments
- Negotiate and support return to work plans
